Built Learning Platform

Role: Frontend Developer

- Built Core UI using Angular
- Converted Design to UI using TailwindCss

Team size: 7 members

10/2019 – 03/2020

FREELANCE

Online study source

Role: Full-stack Developer

- Built MVC online learning source
- Framework laravel

Team size: 3

Stacks: Laravel, MySQL, TailwindCss

Covid time and location tracking

Role: Backend Developer

- Design database using MySQL
- Buildt RestApi for Mobile App

Team size: 3

Stacks: Laravel, MySQL

Project Tonomy: Product Affiliate

Role: Full-stack Developer

- Built MVC online learning source
- Framework laravel

Team size: 2

Stacks: Laravel, MySQL, TailwindCss

Skills

Language

- English

Programming

- HTML
- CSS
- Javascript (NodeJs)
- PHP
- Solidity
- GoLang

Framework

- ReactJs (NextJs), Angular
- Ant Design, Material UI, TailwindCss
- ExpressJs/NestJs
- Laravel
- Mongoose, TypeORM

Database

- MongoDB
- MySQL/PostgreSQL

OS

- Windos
- MacOS

Version control

- Git

TOOL

Other

- Task management: Trello
- Database Design: DrawIO, DBDesigner
- API Design: Swagger, Postman
- Basic CI/CD with gitlab CI, docker
- Basic Nginx Config
- Being good at self-learning, willing to learn about new techs

HOBBIES

Technology

- Learning new skill, new techs
- Reading tech blog like: Medium, DevTo, Viblo

Entertainment

- Watching Movie
- Playing game
